## **Education**

Washington State university  
Plan to graduate in 2027.  
Major: software engineering

## **Summary of qualification:**

Working majoring in software engineering and working and learning about C++ language on the Microsoft Studio 2022  
Have a strong field in math and any math problem that is given I can solve it pretty quickly.  
Have great determination to accomplish any task that is given to me, and I will try my hardest to achieve it.

## **Career goal:**

My career goal is to get a bachelor's degree at WSU in the year 2027 and after that land a job at either Microsoft Apple or Google or Amazon because those are the biggest companies in the world right now so it would mean so much if I can accomplish it.

## **Extracurricular Activities**

- Volunteered at Temple to serve food to the homeless back in 2/13/22
- Volunteered at Clinic- Office work.
- Summer Program- Computer Programming classes it was about learning how to code games and many other stuff it was back in 7/1/19.
- Leadership Classes I would help set up events like homecoming back on 10/18/22 and Winterfest. The whole point of Winterfest is about setting up games for kids so that they can play games including dodgeball, snowball toss, ring toss, face paint, and many other activities.
- Worked at the rein fire ranch in the summer of 2023 5/14/23-8/10/23

## **Community Service**

- Volunteered at Homeless Kitchen: Cooking foods like pizza, pasta, chicken.

- Prepared Emergency essential kits for Homeless Community in Seattle.
- Organized events to collect donations for Homeless Centers.
- Trail Restoration.
- Volunteered at Northwest Harvest to pack snacks for kids.

## **Special Skills**

- Efficient in coding
- Computer proficient
- Leaderships Experience
- Problem Solving
- Programming c++ language
-
